## PROJECTS

**Product hunt clone** — *Tools: Django, Bootstrap, PostgreSQL, HTML, CSS.*

Studied and implemented most of the prominent features of producthunt.com. Implemented **bootstrap** framework on the frontend, complete **user authentication**, **postgresql** for database.

**InstaCrawler** — *Tools: Scrapy, Selenium.*

Developed an **automated crawler** that crawls a particular profile on **instagram** and extracts all the information from the profile and all the posts along with the image links. It can be programmed to store all the extracted data in various formats like csv, xlsx, xml., and also in databases.

**Portfolio** — *Tools: Django, Bootstrap, PostgreSQL, HTML, CSS.*

I developed it as a personal project. It is a web app that showcases all the projects that I've worked on till date. I also integrated a full featured **blog app** in it.

## EDUCATION

**D.Y.Patil School of Engineering, Pune**

*B.E. Computer Science*

2018 - 2022

10th SSC - 90.4%

12th HSC - 85%

## SKILLS
